

METROPOL APARTMENTS, PERTH, WA

Trusted, tried, tested, proven

AFS LOGICWALL® permanent formwork walling system is the answer for fast multi-residential construction, trusted by many Builders, Developers and Consultants globally. This permanent formwork wall system has been used successfully on over 1000 projects and has been rigorously tested and proven by many respected authoritative bodies.

The Builder of Metropol Apartments, Perth, an example of a satisfied repeat client, has utilised AFS LOGICWALL® on **11 multi-residential projects** since 2006 and appreciates the benefits that AFS offers:

- **Time saving** due to fast construction
- **Enhanced site coordination** with shop drawn, labelled panels
- **Product performance** – fire, acoustic and thermal ratings exceeding National Building Codes, purpose manufactured CSR Fibre Cement designed to withstand the elements
- **Slender wall footprint** – saving space between each unit
- **Quality product** – trusted names of raw material suppliers and tested by bodies such as CSIRO

WHAT OUR CLIENT SAYS...

'Metropol on Parry was the third project which I have managed using the AFS System. The product allows for quick construction and less wastage of materials on site making it possible to meet tight construction time frames.'
Builder (Site Manager)

'We have designed and documented numerous projects using AFS LOGICWALL® and have found the system to be extremely suitable for mid to high rise projects.'
Architect
