

AURA APARTMENTS 532-536 FLINDERS ST, MELBOURNE VIC

AFS LOGICWALL® was utilised in the Aura Apartments, a new landmark project located in the heart of Melbourne.

Why was AFS LOGICWALL® chosen?

- **Site access** was challenging, LOGICWALL® provided the builder with a significant advantage with reduced materials handling and craneage.
- **Structural benefits** of LOGICWALL® were fully realised with vertical shear walls throughout the structure.
- **Cost saving** achieved by reducing the amount of conventionally formed walls throughout the structure.

These benefits combined with the overall speed and cleanliness of construction that AFS LOGICWALL® offers created an ideal solution for the project.

FACTS & FIGURES

Units
275 units

Height
28 levels

Quantity of AFS LOGICWALL®
1,454 m²

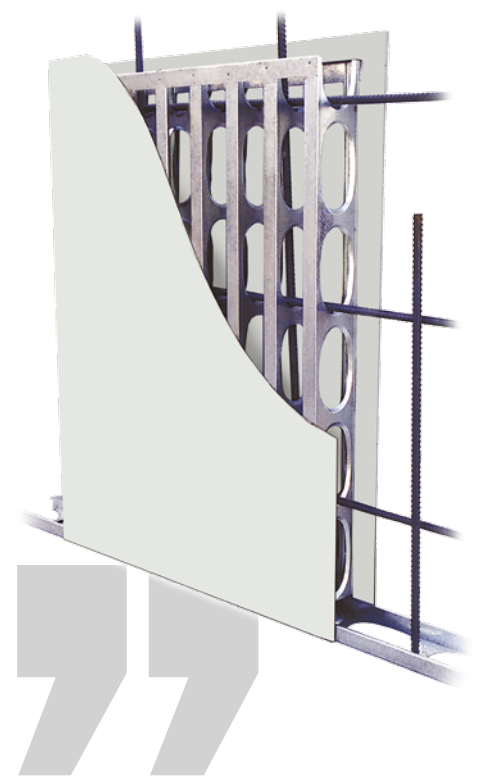

Applications

AFS 200mm Internal Party Walls
AFS 200mm Blade Walls
AFS 262mm Internal Party Walls
AFS 262mm Blade Walls

WHAT OUR CLIENT SAYS...

"The substitution of the AFS 262 LOGICWALL® system in lieu of conventional formwork for many of the load bearing, shear and party walls at the Aura Apartments reduced the overall floor-to-floor cycle times and relieved pressure on the tower crane."
