

# PROJECT POWER

Time is (big) money so arriving on site, on time is invaluable

- VUE APARTMENTS, 971-975 OLD PRINCES HIGHWAY, ENGADINE NSW

## How LOGICWALL® helped these apartments go up *and* down

The builder was keen to use LOGICWALL® for these apartments, knowing that its lightweight design would make materials handling easier while substantially reducing installation times.

However, they were also attracted to this ingenious walling system's other valuable advantages. Using LOGICWALL® meant getting extra column-free space and it lessened the need for beams, for a lower building height.

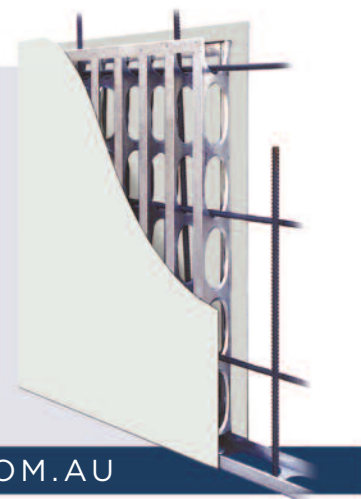

And once installed, the builder Conquest knew LOGICWALL® would provide clean, even surfaces ready for application of the project's various finishes.

- CALL NOW TO SEE HOW LOGICWALL® & REDIWALL® CAN HELP YOUR NEXT PROJECT.

Don't just take our word for it...

**CONQUEST CONSTRUCTIONS** recognise AFS LOGICWALL® as "...an innovative system which offered us quick, efficient installation. It's a clean, lightweight walling system which can adapt to most building layouts and AFS can be relied upon for all-round service." BUILDER

**BENTLEY ARCHITECTS** are in agreement, adding that "AFS load-bearing walls created more column-free space internally and reduced the beams needed between floors". ARCHITECT

38 UNITS	5+2* HEIGHT
N/A REDIWALL®	3,960m <sup>2</sup> LOGICWALL®

\* including basements
