

PROJECT POWER

Clever design makes materials handling easier and quicker

- GALLERIA APARTMENTS, 39 RIVERSDALE, HAWTHORN VIC

LOGICWALL® makes really light work of tight sites

The Galleria Apartments in Hawthorn called on one of the great strengths of LOGICWALL®. Despite being a structural walling system capable of going up to 30 floors, its panels are lightweight.

This ensures the AFS fleet can make timely deliveries at even difficult-to-access sites as the panels can be readily lifted off the truck and just as easily moved to where they're needed on site.

This ease of materials handling means installations can be completed far quicker than conventional, labour-intensive walling methods. And Galleria's builder, Spec Property, recognised that by using LOGICWALL® they could guarantee the quality of construction that they have built a business on.

- CALL NOW TO SEE HOW LOGICWALL® & REDIWALL® CAN HELP YOUR NEXT PROJECT.

Don't just take our word for it...

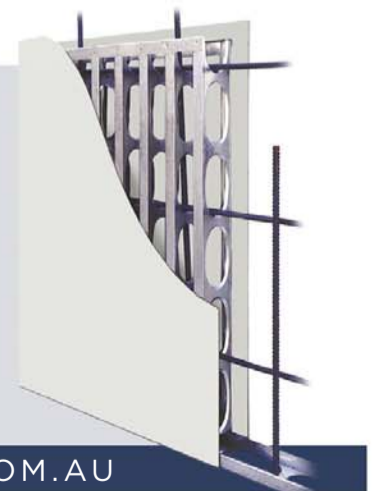

LOGICWALL® WAS PERFECT for such a tight site. While its panels are super strong, they're also lightweight so it made our materials handling much easier." BUILDER

FOUND THE AFS REPRESENTATIVE to be excellent at answering our queries and very helpful during the design stages. And he followed up on responses which showed his commitment". ARCHITECT
