

PROJECT POWER

Walls that are made-to-measure and built to last, finish first

• STELLA APARTMENTS, SUCCESS WA

Detailed and delivered to do-away with delays

Stella is a multi-building, multi-storeyed development built over three stages by Goodland. This award-winning builder knows that construction-efficiencies are central to staying on time and on budget, so they chose AFS LOGICWALL®.

Sized to shop-drawn specifications, the LOGICWALL® panels were then detailed and delivered sequentially to avoid downtime and waste. This also helped prevent the expensive 'lags' between installing structural elements and commencing fit-outs.

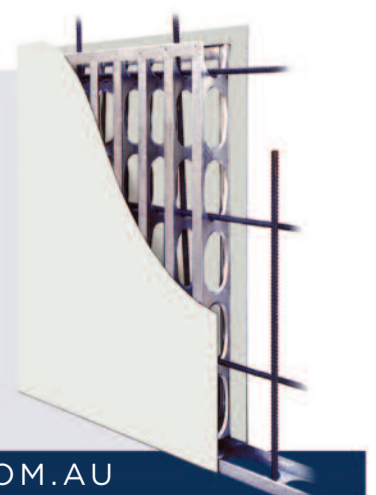

• CALL NOW TO SEE HOW LOGICWALL® & REDIWALL® CAN HELP YOUR NEXT PROJECT.

359 UNITS	2-5* HEIGHT
* across 3 stages and 2 levels of underground parking	
47,000m ² LOGICWALL®	

- AFS LOGICWALL® 120mm party walls
- AFS LOGICWALL® 150mm party walls
- AFS LOGICWALL® 150mm external walls
- AFS LOGICWALL® 162mm party walls
- AFS LOGICWALL® 200mm lift cores and external walls

Don't just take our word for it...

"WE USED LOGICWALL® to enhance the efficiency of our construction. It allowed a faster installation time and the merging of structural elements with finishing trades. Our steel roof installation was able to commence just one day after we poured the walls. And LOGICWALL® gave us a much more flexible anchoring layout than traditional masonry." **IAN MCGIVERN, MANAGING DIRECTOR, GOODLAND BUILDING COMPANY.**
