

PROJECT POWER

Difficult access proves no barrier when using LOGICWALL®

AFS LOGICWALL® provides reliably clean, even surfaces

• ESTIVA APARTMENTS, COLLINGWOOD VIC

LOGICWALL® used to free up a highly restrictive city site

When Brayshaw Architects began work on Estiva they knew that this boutique laneway development would present challenges with access while still calling for the finest of finishes. They saw AFS LOGICWALL® as the solution to both demands.

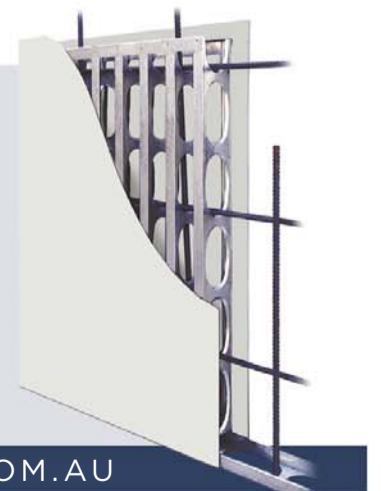

Roads are typically narrow in these old warehouse districts but Estiva's clever combination of design and LOGICWALL® has maximised the living spaces and storage areas. A once awkward and constrained site has been transformed into a "hidden jewel".

14 UNITS	4 STOREYS and basement
1,394m ² LOGICWALL®	

AFS LOGICWALL® 120mm external walls
 AFS LOGICWALL® 120mm party walls
 AFS LOGICWALL® 150mm external walls
 AFS LOGICWALL® 150mm party walls
 AFS LOGICWALL® 150mm balustrade walls
 AFS LOGICWALL® 162mm party walls

Don't just take our word for it...

"We found the AFS system offered a practical lightweight solution on a very restricted site. It provided both time and handling-cost benefits and we are using AFS on a range of multi-res projects. Our dealings with AFS have been positive and, assuming the current installations are successful, I won't hesitate in recommending AFS for future projects". **ROGER BRAYSHAW, BRAYSHAW ARCHITECTS.**
