

PROJECT POWER

Having more walls than most puts spotlight on quality

• LORNE KILLARA, KILLARA NSW

LOGICWALL® shows it has nothing in common with your average wall

Lorne Killara was built by the Modern Construction Group to their usual exacting standard: deliver the highest quality without sacrificing deadlines or budget. And, with the release of these apartments, they readily point to AFS LOGICWALL® as being critical to their success.

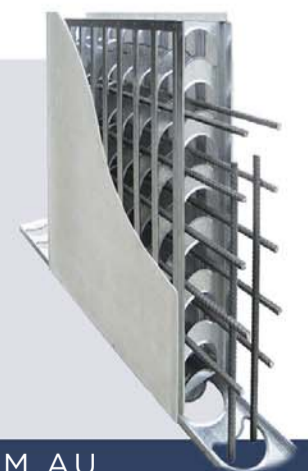

This prestigious master-plan community also boasts another compelling feature in having few common walls. Modern knew that meant choosing a walling system which would make for easy materials handling while providing a reliably superlative finish. They chose LOGICWALL®.

99 UNITS	6 + 1 STOREYS
11,251m ² LOGICWALL®	

- AFS LOGICWALL® 150mm corridor walls
- AFS LOGICWALL® 150mm balustrade walls
- AFS LOGICWALL® 150mm parapet walls
- AFS LOGICWALL® 150mm internal walls
- AFS LOGICWALL® 162mm party walls
- AFS LOGICWALL® 162mm external walls
- AFS LOGICWALL® 200mm lift & stair walls
- AFS LOGICWALL® 200mm ramp walls

Don't just take our word for it...

I was impressed by the professionalism of the AFS team—from the design phase right through to delivery and installation. And their ability to meet deadlines was central to our overall speed of construction. Robert Finn, Project Manager, MODERN CONSTRUCTIONS
