

# PROJECT POWER

LOGICWALL® reduces construction times and raises the standard

• THE PASCOE, 23-25 CUMBERLAND ROAD, PASCOE VALE VIC

## LOGICWALL® goes up while helping keep costs down

Regardless of how complex a project is, Better Living Group maintain the same attention to detail and quality. So they were thrilled with how AFS LOGICWALL® met their expectations while slashing construction times.

They chose LOGICWALL® over time-consuming block work as it offered a rapid install with fast floor cycles. In fact, The Pascoe project was completed structurally in just 10 and a half months. And, together with significantly easier materials handling, LOGICWALL® contributed substantially to cost efficiency.

This was Better Living Group's first use of LOGICWALL® but it clearly won't be their last.

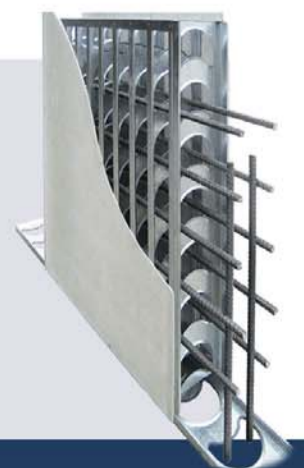

142 UNITS	3 STOREYS
4 BUILDINGS	6,351m <sup>2</sup> LOGICWALL®

AFS LOGICWALL® 150mm corridor walls  
 AFS LOGICWALL® 150mm external walls  
 AFS LOGICWALL® 162mm core walls  
 AFS LOGICWALL® 162mm party walls  
 AFS LOGICWALL® 200mm ramp walls

### Don't just take our word for it...

After many years using core filled block walls we used AFS LOGICWALL® for the first time on The Pascoe project. We were very impressed at the speed of installation, the expertise behind the shop drawing service, efficiency of manufacturing and delivery.

LOGICWALL® achieved considerable cost-saving in wastage, crange, time and finishing. Having used AFS walls as the finished surface on all public areas and rendered the external facade, we have been converted." **SILVIO MAZZEI, DIRECTOR, BETTER LIVING GROUP**
