

PROJECT POWER

Time is (big) money so arriving on site, on time is invaluable

- QUAYSIDE, EASTLAKE PARADE, KINGSTON ACT

Quayside goes up with LOGICWALL® (and down with REDIWALL®)

Held to be Canberra's most prestigious residential space, it was predetermined that the luxurious Quayside would use AFS LOGICWALL® and AFS REDIWALL®. The builders, BLOC (ACT), recognised this as essential in their blending of concrete, glass, stone and terrazzo for the project's distinctive design and its 5-8 star energy rating.

Being a major project with two tower cranes, they also knew that LOGICWALL® greatly reduces materials-handling. And seven residences, three whole-floor penthouses, 35 apartments and nearly 2,000sqm of commercial space went up in just 7 months.

- CALL NOW TO SEE HOW LOGICWALL® & REDIWALL® CAN HELP YOUR NEXT PROJECT.

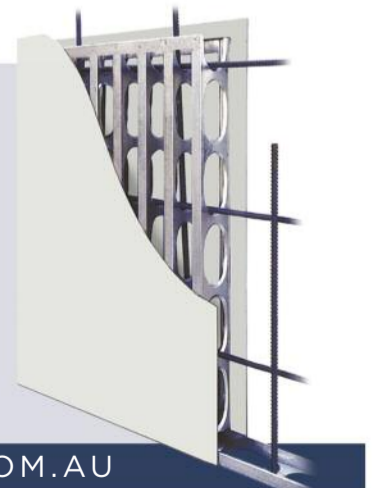

100 UNITS	6* HEIGHT
698m ² REDIWALL®	4,447m ² LOGICWALL®

* including basement

- AFS LOGICWALL® 162mm party walls
- AFS LOGICWALL® 200mm stair walls
- AFS LOGICWALL® 200mm blade columns
- AFS REDIWALL® 200mm underground water tank

Don't just take our word for it...

BLOC have established themselves as a company capable of achieving defined product and budget outcomes. They rely on AFS to help ensure this because: "Overall, the transition from sales to design, manufacture and installation is well managed by the AFS team. A key understanding of project deliverables by the design team and manufacturing manager generally had the product arriving on site as required." BUILDER
