

PROJECT POWER

Multi-residential success help build everyone's reputation

• 69-71 PARRAMATTA ROAD, CAMPERDOWN NSW

Experienced builder keen to repeat LOGICWALL® success

From *go to whoa* Patrick Sarkis (Henley Constructions) has been pleasantly pleased in using AFS LOGICWALL®. The shop-drawn accuracy and delivery-as-promised ensured the timely construction of the Camperdown project and he notes the LOGICWALL® 'experience' began well before the walling system arrived, with the AFS team working closely with Henley Constructions throughout.

Such was the success of this project Patrick is keen to specify AFS walling for others he has in a busy pipeline of multi-residential ventures.

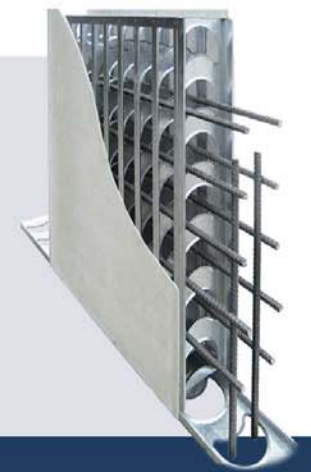

21 UNITS	6 STOREYS
1 BUILDING	3,131m ² LOGICWALL®

AFS LOGICWALL® 150mm external walls
AFS LOGICWALL® 162mm party walls
AFS LOGICWALL® 200mm lift & stair core

Don't just take our word for it...

AFS have created an unbreakable bond with Henley Constructions and [with AFS LOGICWALL®] have provided the building industry with a more efficient way of constructing walls. The teamwork and professionalism demonstrated by AFS during the construction of 'Camperdown 2050' has set a standard that will be hard to match. We highly recommend them for your next project and assure you that AFS will be doing ours.
