walling built better

Quick completion and a first class finish

Charlene's Tower, 153 Parramatta Road, Homebush NSW 2140

Our customer says: We expected a lot—and got even more

We were looking for a load bearing wall solution that could speed up construction times whilst maintaining our high construction standards. After reviewing the options, we decided to use afs logicwall® and it exceeded our expectations.

The building design called for clean lines and the flat, true surfaces of the logicwall® panels allowed us to achieve this. Importantly, the installation of the panels was quick and easy saving us time and money whilst delivering the quality we expected.

CHARLIE CHALLITA, DIRECTOR/OWNER, I KNOW DEVELOPMENTS

Units:
72 residential
